This series of works, is using life's latitude to probe,
to prostrate before God.
Every piece is created from tranquility,
just like the start of each week or day,
visualising life's moments,
continuously exclaiming and recording all these wonders down,
just like a pregnant mother creating them,
love being part of the creation process.
It is like each time I step into the forest or great nature
the spirit grants us all that we desire.
And at the same time using our own love and ideas to create each work.
We are creative spirits, and we are also part of the
world's artist community.
